

Appln. No. 10/690,293

Attorney Docket No. 10541-1880

I. Amendments to the Claims**1. (Currently amended) A window assembly comprising:**

a window with an opening; and

a flange attached to a lower region of the window, an upper surface of the flange being substantially parallel to a bottom edge of the opening and being at a higher elevation relative to the bottom edge of the opening to prevent contact between cargo extending through the opening and the bottom edge of the opening, the upper surface of the flange being contoured along a portion of the length of the flange.

2. (Cancelled)

3. (Original) The window assembly of claim 1, wherein the upper surface is at substantially the same elevation as the bottom edge of the opening.

4. (Original) The window assembly of claim 1, wherein the flange is longer than the bottom of the opening.

5. (Original) The window assembly of claim 1, wherein the flange has a substantially L-shaped cross section.

6. (Cancelled)
